BLOCKCHAIN INTRODUCTION

A blockchain is an open and distributed digital register, capable of storing data records in a secure, permanent, verifiable way. Once written, data in a block can not be retroactively altered without changing all the blocks after it and this due to the nature of the protocol and the validation scheme, would require the consent of the majority of the network. The blockchain can therefore be represented as a list, in continuous growth, of blocks connected to each other and made safe through the use of cryptography.

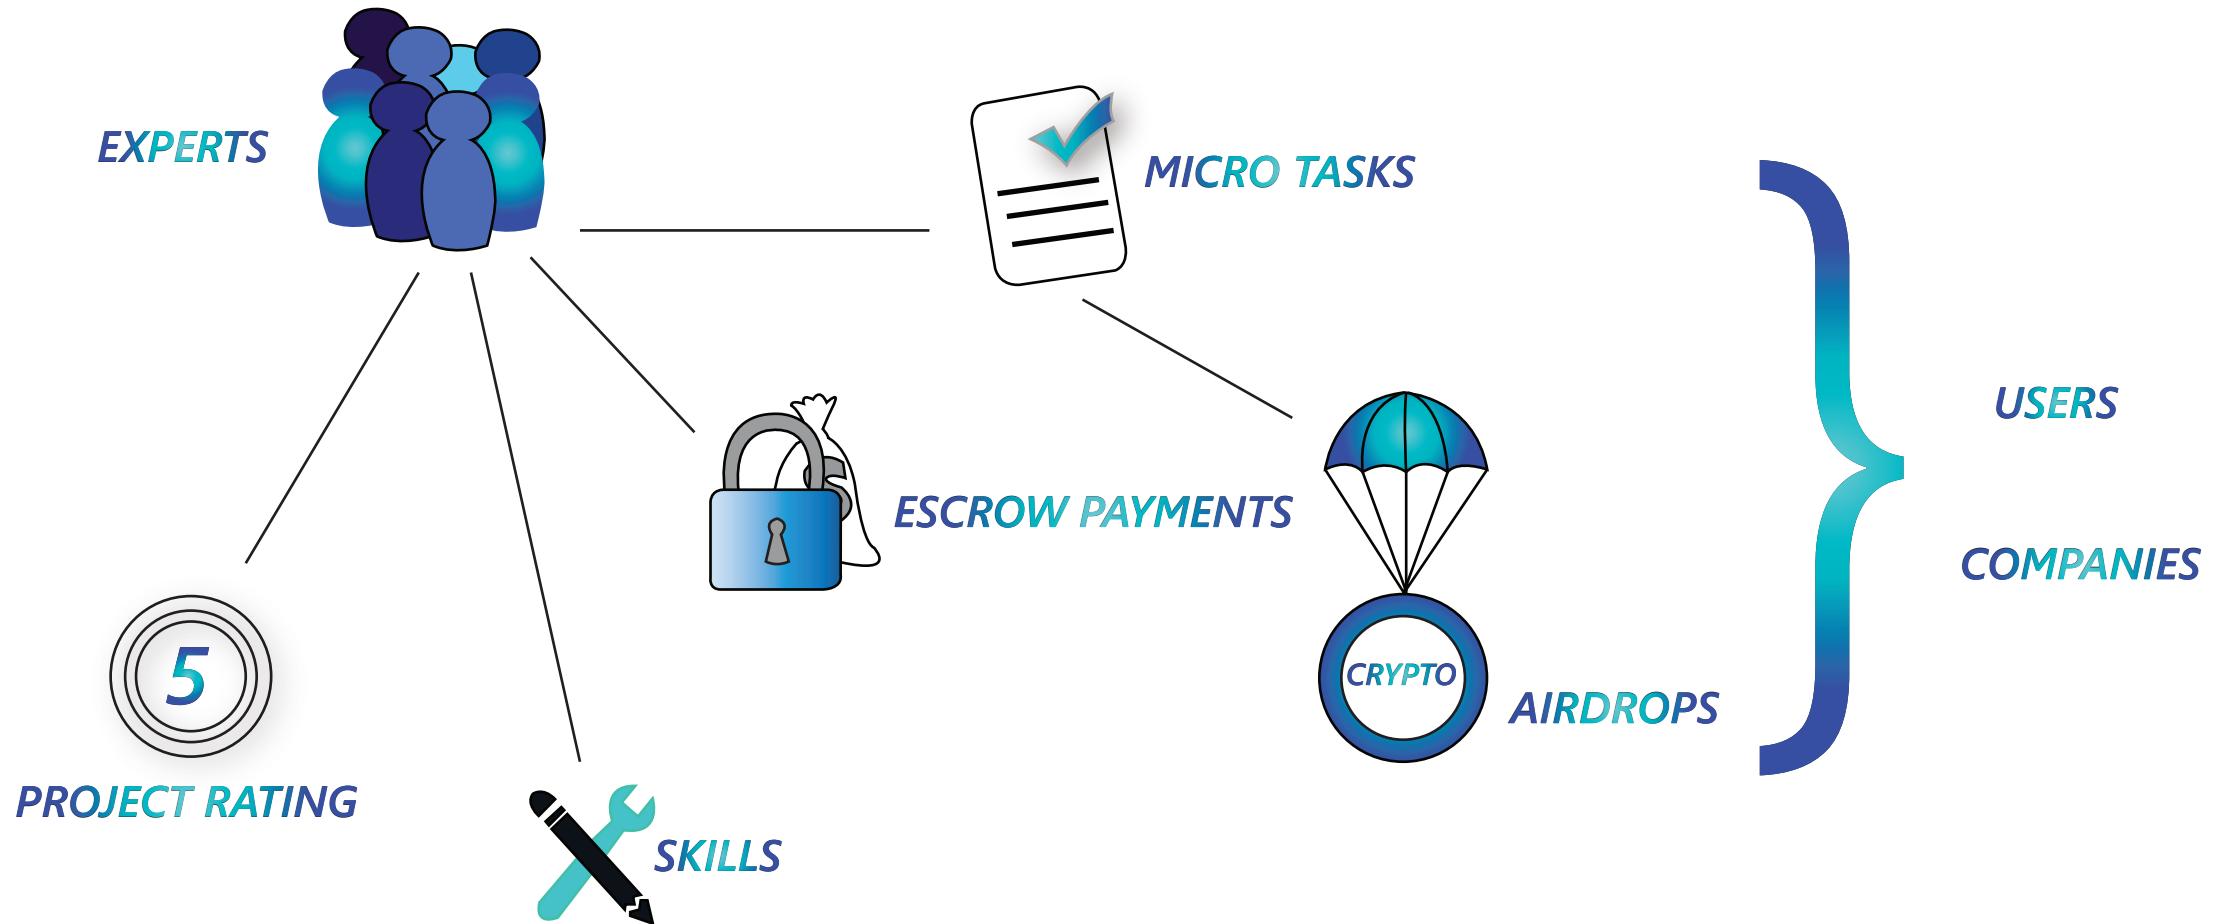

The distributed nature and the cooperative model make the validation process robust and secure, authentication takes place through mass collaboration and is fueled by collective interests.

The blockchain is the realization of the Distributed Ledger, as an evolution from the Centralized Ledger, Decentralized Ledger up to the Distributed Ledger.

CRYPTOHUNTERS INTRODUCTION

CryptoHunter.club is made available thanks to a experts, skilled helpers and Community, who have combined the skills and experience in the field of blockchain to achieve a single big goal: to realize a project that is indispensable but not yet provided by anyone.

OMNIS-BIT INTRODUCTION

OMNIS-BIT is a ERC20 utility token based on ethereum's blockchain.

This token provides the following services:

-Skills Universal Marketplace

-Escrow Payments

-Project rating

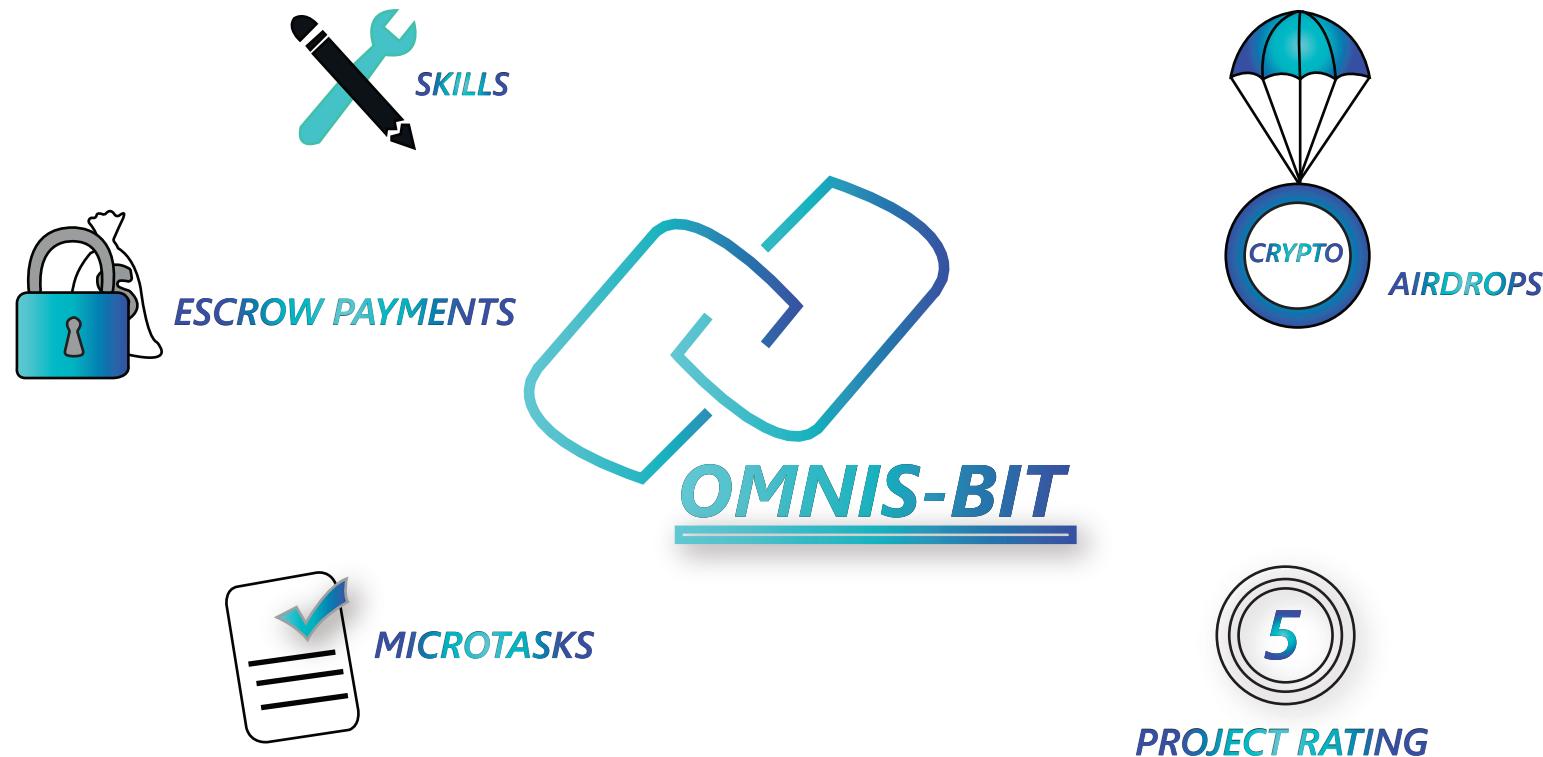

-Microtasks

-Verified airdrops

OMNIS-BIT is born with the purpose of approaching everyone to the world of blockchain with the help of dedicated experts, microtasks and verified airdrops.

In fact everyone can earn real money thanks to his own skills.

The release of our various services will be gradual, constant and it will be continuously improving.

OUR SERVICES: SKILLS UNIVERSAL MARKETPLACE

Anyone has skills but often can not exploit them due to many factors.

CryptoHunters.club aims to create a real store of products, digital services and capabilities that will allow you to work comfortably from home, paid in cryptocurrency with the same system as EscrowPayments.

Anyone can enter their own gigs, creating the possibility of microjobs. Currently the marketplaces that offer such service have very high fees, OMNIS-BIT will only hold back 2% + transaction fee, from the "seller" profit. No marketplace up to now manages payments in cryptocurrencies with cutting-edge systems that guarantee security for both the freelancer and the buyer.

Functions guaranteed for the marketplace:

- Payments (transactions) with OMNIS-BIT and other cryptocurrencies.
- System that protects both freelancer and buyer
- Mutual Rating of the transaction
- Secure payments thanks to the integration of Escrow Payments
- Fee blocked at 2% + transaction cost

The system will retain a 2% fee, that will be divided as follows:

33% Big project investors,

33% OMNIS-BIT hodlers

34% project's funds

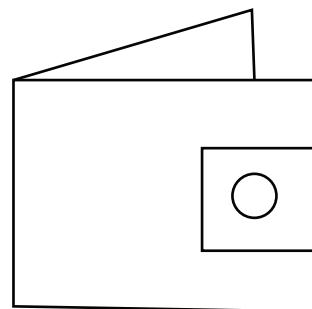

OUR SERVICES: SKILLS UNIVERSAL MARKETPLACE

FEE	STANDARD MARKETPLACE	SKILLS UNIVERSAL MARKETPLACE
PAYMENTS	<i>High fee 10% or more</i>	<i>Low fee 2%</i>
RATING	<i>Unsafe payments</i>	<i>Safe payments thanks to Escrow Payments and also in the long run thanks to blockchain's system</i>
BUYER PROTECTION	<i>Unverified</i> <i>Protection only for the buyer</i>	<i>Rating verification only for real transaction completed</i> <i>Protection for both parties</i>

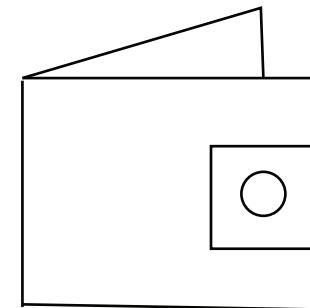

OUR SERVICES: ESCROW PAYMENTS

Currently there is still no secure payment method via blockchain. Given the blockchain's nature and its protocols, transactions are not guaranteed by anyone, this causes a huge issue that creates insecurity in cryptocurrencies themselves as safe and reliable payment method to use each day for any type of transaction.

USER

SELLR

OUR SERVICES: ESCROW PAYMENTS

CryptoHunters.club will enable secure financial transactions via OMNIS-BIT blockchain.

OMNIS-BIT will be an exchange cryptocurrency for payments of any kind.

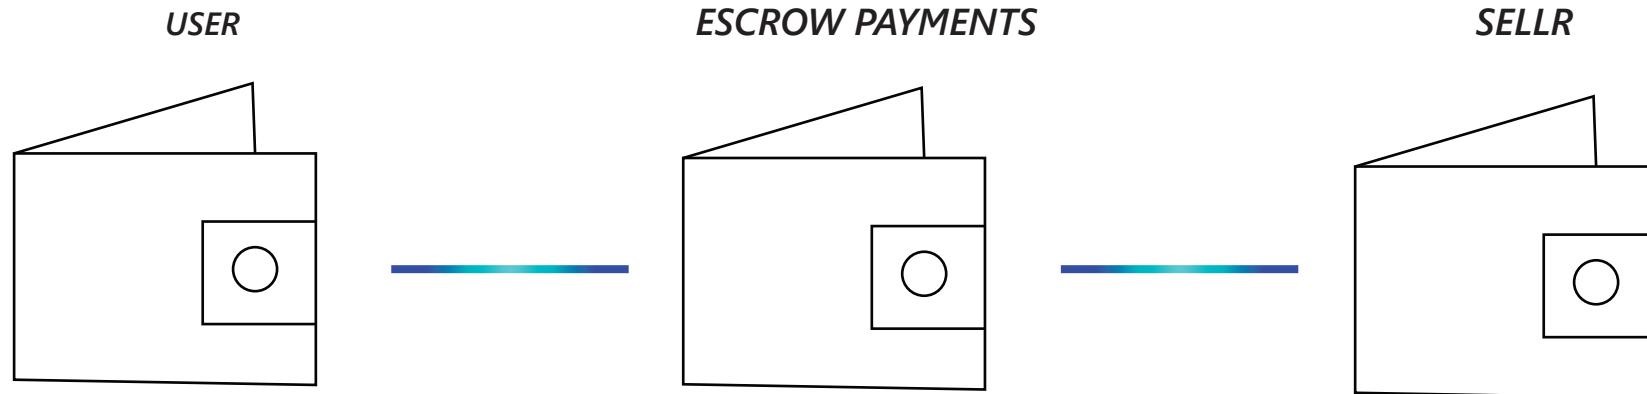

Different transaction topologies: anonymous, public and group.

Safety:

*.Both parties are protected thanks to the future OMNIS-BIT MAINNET and the "Escrow payments" logic.
Service will be managed completely by smartcontracts ensuring security, transparency, high scalability*

The system will retain a 0.2% fee, that will be divided as follows:

*33% Big project investors,
33% OMNIS-BIT hodlers
34% project's funds*

OUR SERVICES: OMNIS-BIT HODL

OMNIS-BIT tokens are the foundation of CryptoHunters.club's services that are blockchain-based and all members of our community who own OMNIS can earn from them.

Users can get rewards for holding the tokens..

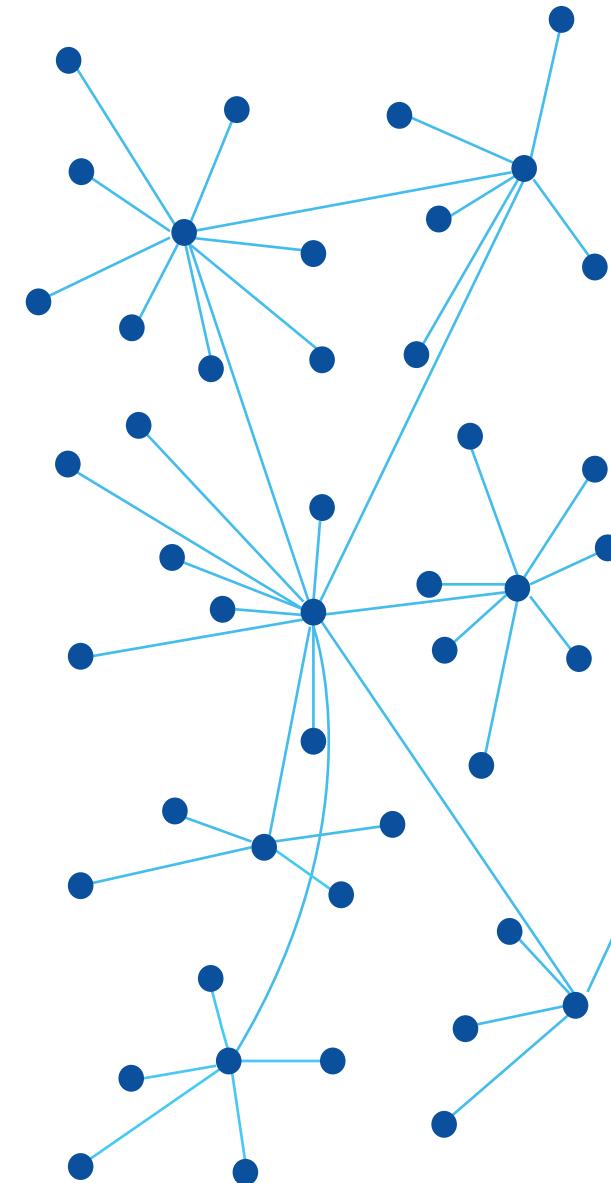

The reward calculation formula is based on the growth of our two main services: SKILLS Universal Marketplace and Escrow Payment , every day we distribute 33% of our profits on CryptoHunters.club's services among all those users who have accumulated their tokens.

The system will retain a 0.2% fee, and 2% fee from Escrow Payments and SKILLS Universal Marketplace that will be divided as follows:

*33% Big project investors,
33% OMNIS-BIT hodlers
34% project's funds*

OUR SERVICES: PROJECT RATING

*The current voting system is centralized, obscure, chaotic, it gives minimum value and options to users.
In addition it is often controlled by the company that derives its profits, in this way they can manipulate at will the results.*

DECENTRALIZED

OUR SERVICES: PROJECT RATING

PROJECT RATING

It's a service that offers companies the opportunity to receive an evaluation based on objective criteria.

To make the result transparent, it will not only be the experts who evaluate the project in question, but also users with the highest rank. Cryptohunters.club will reward OMNIS-BIT users who participate in the vote, meeting certain requirements.

Project rating is only available for "Gold Digger" & "Hunters" users.

*Assessed with 1-5 stars obtained thanks to the average of the steps below.
Evaluation based on:*

Project- documentation (whitepaper)

Founders identity

Social activity and assistance

Website and team

Evaluation weight:

All requirements will be assessed from 1 to 5 stars by experts (weight 50%) and cryptohunters.club users with higher rank that meet the underlying requirements (weight 50%).

Requirements for voting users:

-Rank above "Gold Digger"

-Basic knowledge of blockchain(a test will be carried out)

-It mustn't be part of the project that requires evaluation

-User identity

OMNIS-BIT ECOSYSTEM

VERIFIED AIRDROPS

Crypto companies distribute free tokens to their communities to increase their project's visibility, increase the circulating supply and stimulate trade.

These free distributions are commonly known as "airdrops."

The team and the community of cryptohunters.club allow you to check projects and provide airdroppers free Tokens distributions, that are guaranteed!

Verified airdrops procedures:

- Verify founders identity
allows you to check the project creators
- Reading whitepaper
it allows to understand the idea of the project, of the future realization and of the final service.

Airdroppers evaluate airdrops.

OUR SERVICES: VERIFIED AIRDROP

Crypto companies distribute free tokens to their communities to increase their project's visibility, increase the circulating supply and stimulate trade.

These free distributions are commonly known as "airdrops."

The team and the community of cryptohunters.club allow you to check projects and provide airdroppers free Tokens distributions, that are guaranteed!

Verified airdrops procedures:

- Verify founders identity
allows you to check the project creators
- Reading whitepaper
it allows to understand the idea of the project, of the future realization and of the final service.

Airdroppers evaluate airdrops.

OUR SERVICES: MICROTASKS

Microtasks offer scalable on-demand outsourcing solutions for small or large quantities of jobs. Every online action can be called a microtask, the latter being the basis of all internet technology. This Project allows you to make money with your abilities. Microtasks will be implemented in SKILLS UNIVERSAL MARKETPLACE and they will be called MICRO-JOBS

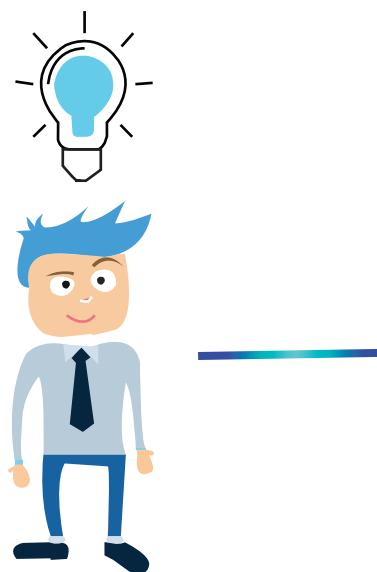

OUR SERVICES: SUPPORT

Blockchain isn't actually understood by many people due to incorrect and roughy informations.

The majority of these projects are too complex to be understood, and after the crowdsale they don't dedicate enough assistance to their clients, leaving them with their own legit doubts.

CryptoHunters.Club guarantees assistance 24/7 under every point of view about blockchain and our project. Through this way, we can train our clients and final users, and help them use every service offered by OMNIS-BIT Ecosystem.

CRYPTOHUNTERS.CLUB

CRYPTOHUNTERS PROJECT VISION

USERS & COMMUNITY

CryptoHunters.club takes back the real values of blockchain, putting the community first , satisfying their needs thanks to services available to everyone.

Userfriendly Blockchain

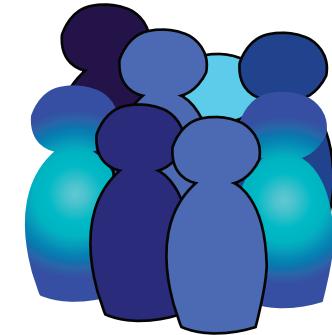

OMNIS-BIT offers 24/7 free assistance to train our users regarding the blockchain and the project itself.

OMNIS-BIT for everyone

The project provides daily tasks guided by our experts , everyone can contribute to the development of the project and become collaborators thanks to their own skills.

Moreover daily tasks guarantee an active and productive community.

The multiplicity of its servicesand micro-jobs characterizes the heterogeneity of costumers.

Real earnings

CryptoHunters.Club's users have the ability to revolutionize their way of working, thanks to microtasks, verified airdrops, project rating and skills.

Community and users earn OMNIS-BIT in exchange for their contribution, the project revolutionizes the way in which we approach the blockchain technology and the way of working thanks to its services.

CRYPTOHUNTERS PROJECT VISION

COMPANIES AND START UP

CryptoHunters.club gives companies a boost to help them improve and increase their customers thanks to dedicated services.

Support

24/7 assistance regarding blockchain technology, advice and help for implementation of projects thanks to our experts .

Web advising space

Web space is fundamental for the growth of every online project.

CryptoHunters project offers:

Web space for publishing verified Airdrop&Bounties

Anticheating system

Our bots

The knowledge of our experts provide safety for both the users and the start up.

"Project Rating" public and decentralized evaluation system, provided by a criteria based on grades given by users and experts,

Escrow Payments,

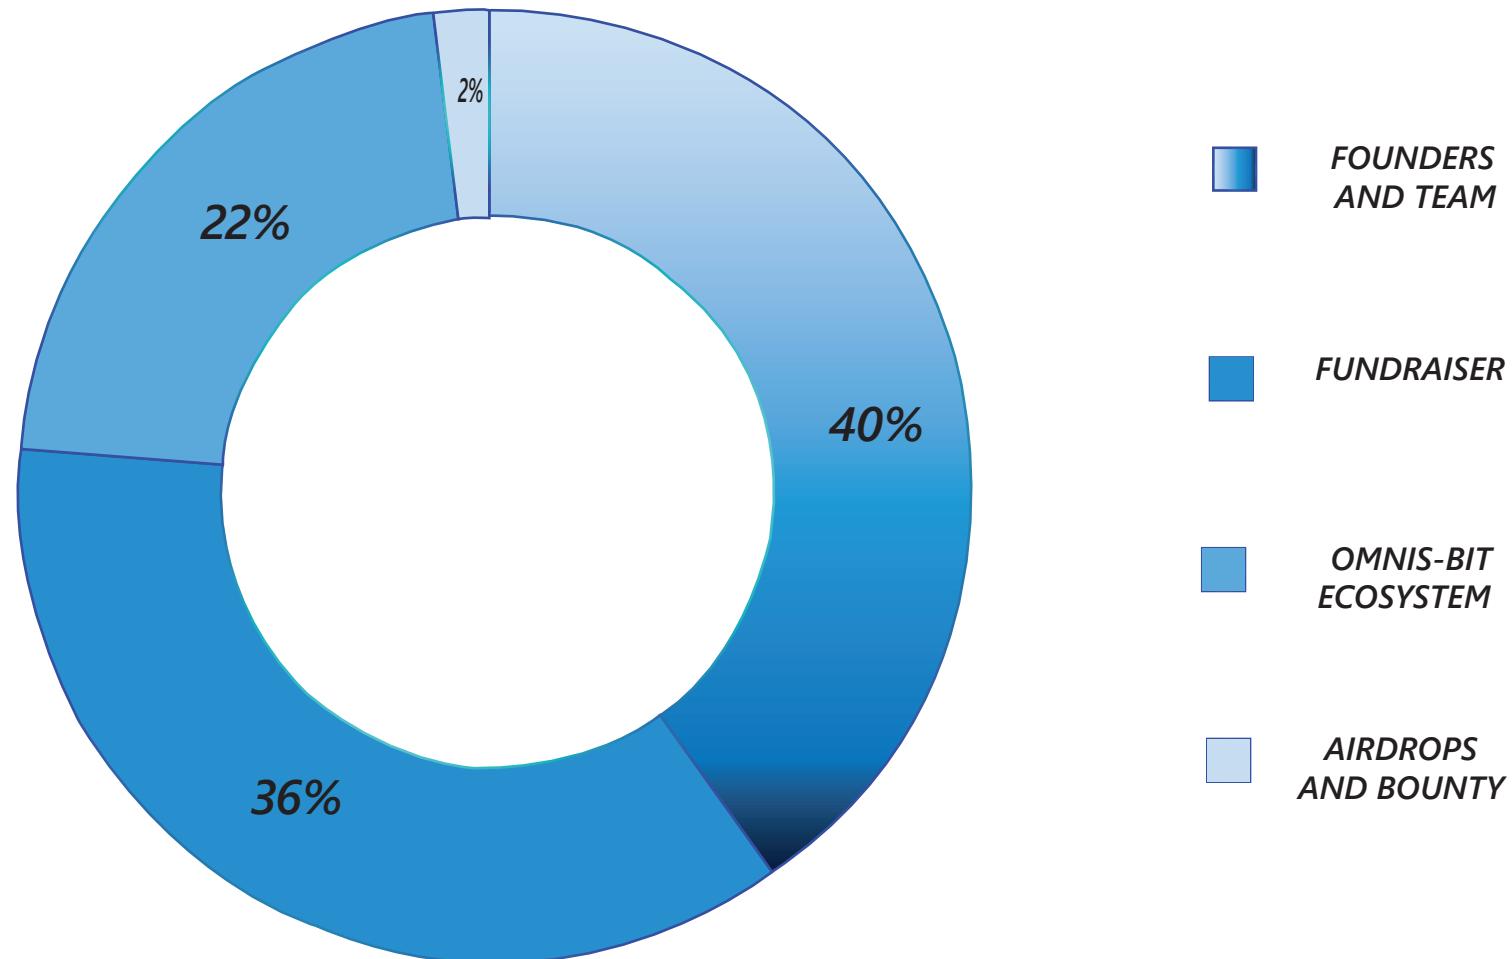

Secure payments for goods and services, payments for the skills of the users who make them useful contents for the project

Skills Universal Marketplace

It provides the opportunity to find suitable freelancers to be included in the project team or for small micro-jobs.

You can also provide your services directly through Skills Universal Marketplace, increasing the scalability of your service and / or product.

OMNIS-BIT SPLIT
